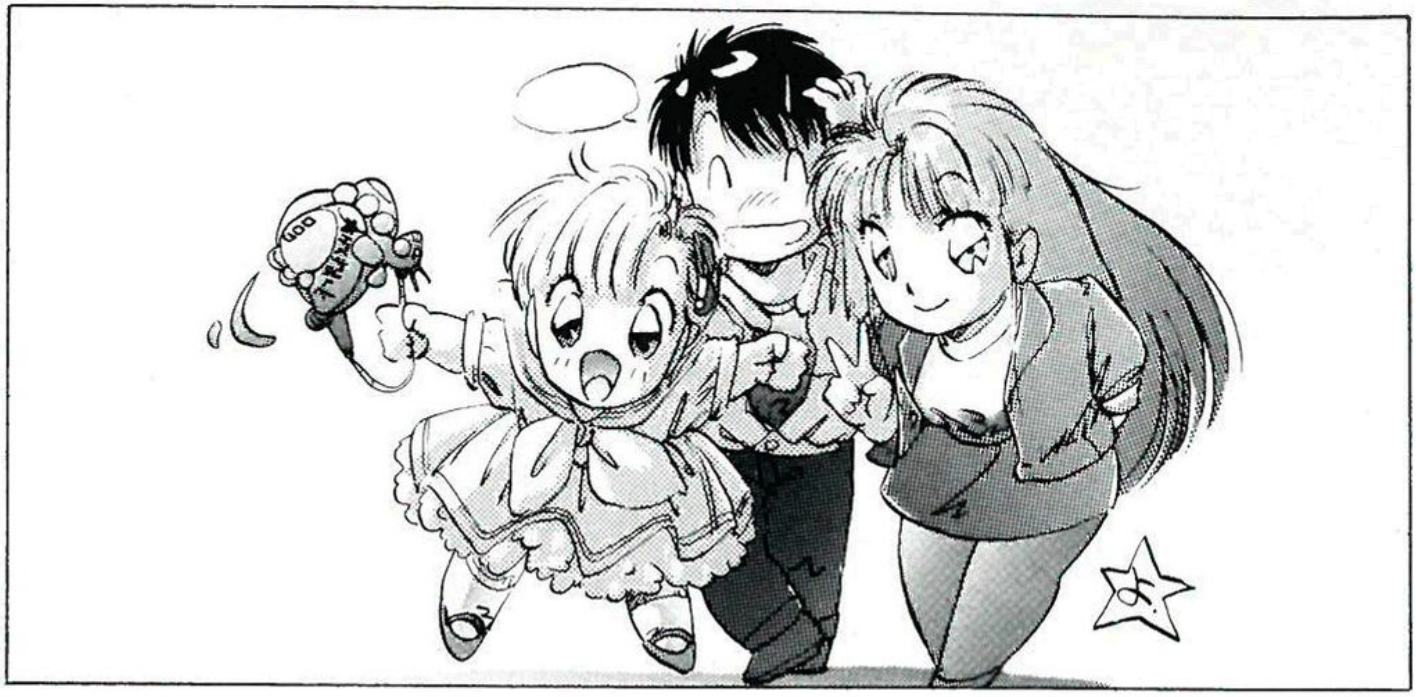
HUH?



Thank you for purchasing Metal Slader Glory for your Family computer system, brought to you by HAL laboratories. We created this game to transport you from your everyday life into the world of the near future. You'll find the people there are not so very different from you and I. Each has their dreams, relationships and of course, their problems. Use this manual for reference on your journey, and see it through to the very end. Your story began the moment you opened these pages.

This manga details the events preceding the game. Please read it before playing.

Excuse me for interrupting during bath time, but I want to take this opportunity to explain something!

There are some of you wondering why Elina is using Tadashi's bathroom...

But there's a perfectly innocent explanation.

Elina is working part-time at Tadashi's workshop and she likes to get cleaned up and changed into fresh clothes before heading home.

Simple as that.

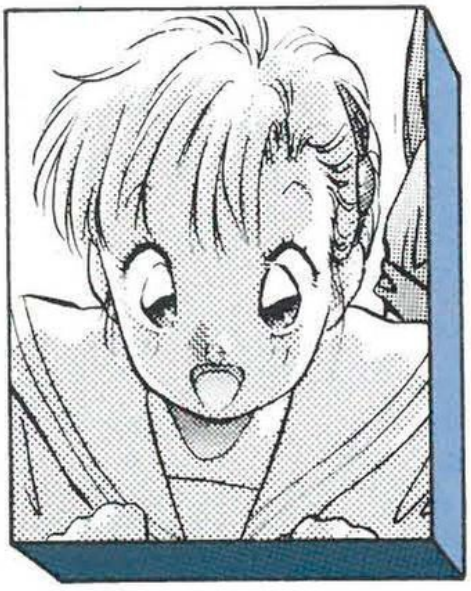
CHAPTER 2

Main Charac

日向(ひむかい) 忠(ただし) 17歳(さい)

TADASHI HIMUKAI

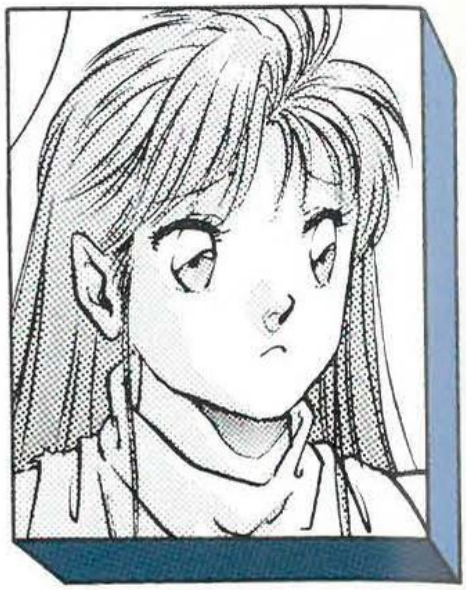
▼He works as an industrial metal slader operator. Talented and dynamic, he doesn't let small things bother him. He's protective of his sister and can't resist a pretty face.



日向(ひむかい) あずさ 12歳(さい)

AZUSA HIMUKAI

▼ Tadashi's sister. Bright and bubbly with excellent grades. She's still a little immature. Elina fusses over her, but she always listens to her big brother.



エリナ・ファーファ 17歳(さい)

ELINA FURFA

▼ Tadashi's girlfriend. A devoted girl with a kind heart and excellent judgement and she can handle a mech to boot.

cter Introductions

You'll meet a wide variety of characters in Metal Slader Glory. Mysterious people, helpful allies, and those who are less trustworthy... If you meet a new character take time to find out what type of person they are. Let's start by introducing these five!!

ゲン・ランクル 28歳(さい)

GEN LUNCLE

▼He runs the Gen's auto shop next to Tadashi's workshop. From old cars to metal sladers, he can get you what you need.

チャーミー・グリント 21歳(さい)

CHARMY GLINT

▼A girl who works at Gen's place. She's meticulous and a neat freak, but also kind of an air head.

These aren't the only characters you'll meet. The more characters you get to know the more fun the game will become!

At certain points in the story, you'll have a chance to obtain a password which can be used to save and continue the game.

How to progress!

What if the screen is flickering?

- Metal slader glory uses the latest animation technology which may cause screen flickering, but don't worry your TV isn't broken.

- To activate the flicker adjustment screen hold select during the bootup sequence while the © is displayed. Adjust the screen until there are no flashing red areas displayed. Pushing the select button will change the background color.

- If you are unable to get the flashing to stop no matter how many times you push the select button reset the console.

- After adjustment pressing the A button will start the game.

- If the screen flickers during the game pressing and holding the select then start button will display the adjustment screen.

-Screen Timing Tweak-
Press Select to adjust the screen until the flashing red marks are no longer visible.
Press A when done.

CHAPTER 4

MSG - backgr

When is the game set?

Metal Slader Glory is set 70 years in the future in the year 2062. Our story takes place in a world recovering from a period of conflict. Over the last 8 years, the Earth has once again become peaceful and prosperous.
But as Tadashi discovered, that may soon be coming to an end...
As a side note, the story takes place during the summer break, which is why Azusa is able to accompany Tadashi on his adventure...

A New Age of Space Exploration

In the world of Metal Slader Glory, space travel isn't the difficult and dangerous undertaking it is today. Several entertainment and tourist spots have been built on the moon and orbital colonies have sprung up throughout the solar system. All of these are tied together by a network of regular interstellar shuttles. Even Azusa, an elementary school student jumps at the idea of 'seeing the stars up close'.

Energy Information

In the year 2040 machines that run on fossil fuels such as diesel engines and gas turbines were banned from use on the earth. Renewable energy such as solar and water power were introduced, however, they were unable to completely satisfy the planet's

round information

energy needs. This, coupled with the fact that heavy machinery manufacturers were falling on hard times lead to the creation of a new research agency on the moon called the I.S.D.C.

Birth of the Metal Sladers

Research at the I.S.D.C. soon bore fruit, building on existing technology they were able to create manned bipedal robots with sophisticated, cybernetic limbs. Protected by tough resin-treated outer plating and able to run entirely on solar power this new breed of super lightweight robots were called Metal Gear Arms.

Over the following decades, these robots were further strengthened and adapted for military use. These new weapons were christened Metal Sladers, the perfect weapon in a world where energy was becoming more and more of a concern.

Each model of metal slader has it's own nickname and number. The titular Glory is just as its name implies. A high-performance machine created for a singular noble purpose.

Let's enjoy the side stories

Finally, a very important piece of information. Metal Slader Glory isn't simply a linear path. There are many side stories waiting to be discovered.

So while your final destination may be the same, the text and graphics you see along the way might be completely different. You may find yourself teaming up with a new partner or even going it alone. Take your time and test things out, after all, you're the hero. Make your own story and your own memories.
